# Navigating the range.

We know design decisions can be challenging, so to help make things easier we have curated a timeless palette of White and Neutral laminates that are split into three categories – Whites, Mid Tone Neutrals and Dark Tone Neutrals – in addition to Accent décors which you can use to create your own unique interior.

## Whites

The Laminex Whites range has the power to radically transform a space. The cooler whites bring an open, contemporary look to projects, while our warmer whites work beautifully within classic interior styles.

## Mid Tone Neutrals

Inspired by nature, the mid tone décors offer raw, organic tones ranging from pale, creamy hues to relaxed khaki tones and wintry shades of grey.

## Dark Tone Neutrals

Bringing a deeper intensity of colour, the range of dark tones feature earthy browns and greens and smoky greys moving through to intense charcoals and inky blacks.

## Accents

The Laminex Accents range is an evolving palette of décors that reflect shifting design trends. Accent colours can help lift and add impact with soft and delicate pastels to brilliant bolds, or even create whole rooms of pop and vibrancy.

Laminex laminates combine timeless and contemporary colours and finishes with the durability to stay looking pristine in the most demanding interior environments. They're hardwearing, stain resistant, easy to clean, and rigorously tested to ensure that they satisfy Australian standards for surface materials.
