Tesrol was founded by a father and his son in 1981, crafting made-to-measure solid timber cabinet doors out of a small factory unit in Girraween, Sydney. Tesrol's focus on its products was to uphold a standard that went well beyond their client's expectations. The craftsmanship set by Tesrol achieved new benchmarks within the industry, earning Tesrol a reputation for the highest-quality products.

Tesrol's high-quality was so well received that the company quickly expanded beyond solid timber doors and began offering a comprehensive range of products. With Tesrol's combination of quality products and product range, the business became an unprecedented success, and rapid expansion soon spread across Australia's east coast. Tesrol remain an Australian family-owned and manufacturing company to this day. Tesrol continue to be innovative market leaders, constantly improving thanks to the efforts of every one of its team members.

Over forty years later and Tesrol is still one of Australia's major cabinet door manufacturers and has further expanded into the decorative board market. The company's main facility is a state-of-the-art manufacturing operation in Wetherill Park, NSW, covering over 8000 square metres and housing several major divisions and machinery lines. Today, Tesrol offers a comprehensive range of cabinet doors and decorative board products such as PureGloss, PureMatt, Likewood 2D+, Superclean: anti-fingerprint, vacuum formed doors, and polyurethane doors. All Tesrol products are available in contemporary finishes across a diverse range of products.

Tesrol is the company of choice for the highest-quality cabinet doors, joinery accessories and decorative board products among the most demanding cabinet makers, architects, and interior designers. Tesrol products are suitable for many interior applications, including kitchens, bathroom vanities, wardrobes, office spaces, and commercial fit-outs. We service Australia with distribution centres in Sydney, Melbourne, and Brisbane.

For further information on any of our products, please get in touch with Tesrol to see how we can assist you with your selection of products for a new kitchen renovation or joinery project.

Presenting our

Online Visualiser.

Dream. Visualise. Create.

Tesrol's Online Visualiser is a way for you to select from a range of pre-designed kitchen, laundry and wardrobe layouts, and configure these to your liking. Choose from an extensive range of colours and products to help conceptualise the exact look you are seeking for your new kitchen.

Change the colour combinations of the doors, panels, benchtops, and more, to show how our range of products can complement each another. Showcase a two-tone effect, or just a single colour, and also find a matching benchtop and splashback.

The Online Visualiser is compatible with a range of devices including your computer, smartphone, and tablet.

Visit www.tesrol.com.au/visualiser or scan the QR code below on your smartphone.

Product: Vacuum Formed

Vacuumformed doors and panels

Our range of vacuum formed doors offer you a wide selection of modern designs, colours, and edge profiles.

Doors are available with a face routed design or plain, along with a range of edge profiles and colours, giving you varied options for your new kitchen project.

Tesrol is renowned throughout the industry for its high standard, quality vacuum formed doors.

At Tesrol we have been producing high quality vacuum formed doors for over two decades. With this comes integrity, knowledge, and experience in all of our manufacturing processes of vacuum formed doors.

Our doors are produced with technologically advanced machinery from Germany and we only use the highest grade materials to ensure the finished product reflects our brand values.

If it's a vacuum formed door for your kitchen, make sure it is Tesrol, the brand you can trust and backed by our seven-year warranty.

Polyurethane

doors and panels

Tesrol's range of 2-pack polyurethane painted doors give you limitless colour options in a wide range of designs and edge profiles, to define any style of kitchen, whether it is modern, sleek, contemporary or provincial.

Tesrol's 2-pack polyurethane painted doors are available in a wide range of finishes depending on your individual taste from; 10% Matt, 30% Satin, 60% Semi-Gloss and 90% High-Gloss. We also have the capacity to indicatively colour match most of the Australian paint colours from their paint codes.

At Tesrol we are committed to our quality, brand and reputation. We purposely built our own modern in-house paint facility utilising the latest machinery and technology with fully trained and qualified staff to meet our high standards.

This enables us to achieve the highest quality and ensures a premium standard of finishing to our polyurethane doors, which, we consider to be well above the industry standard.

Vacuum Formed Colours

At Tesrol, we have a vast range of Vacuum Formed colours to suit your next kitchen, cabinetry, or commercial design project. From a generous amount of white hues to woodgrains, textured colours, and more. Our colour range can add excitement, class, and elegance to your project.

If you are looking for a sharper more innovative finish, try combining two colours into your project through the use of different coloured doors and cabinets to give your project a real 2-tone effect and add both harmony and contrast.

Decorative Board.

Tesrol manufacture in Australia, a wide range of Decorative Board Products available in either sheet form or doors and panels that are cut and edged to size. These products are the latest surface finishes and are used globally.

Superclean: Anti-Fingerprint

The latest breakthrough in revolutionary surface technology - available in a stunning supermatt finish.

Likewood 2D+

Likewood 2D+ is available in an array of exciting prints in timber finishes reflecting the appearance, feel and touch of real timber.

PureGloss

A high-gloss acrylic product with a luxurious mirror-like finish available in the latest style trends.

PureMatt

PureMatt offers a clean matt finished as opposed to that of the high-gloss.

Design: Cut and Edge
Colour: SC Carbon
Product: Superclean

Introducing Superclean: Anti-fingerprint, the latest breakthrough in revolutionary surface technology - available in a stunning supermatt finish. Superclean's unique finish is a flat, low sheen and low reflective surface. This finish helps give it a super smooth silk-like appearance in both touch and feel. This revolutionary new technology comes designed with a unique surface coating that is highly-resistant to fingerprint markings on the surface from your typical day-to-day use.

Superclean is suitable for both horizontal and vertical applications. It can be used to suit a range of cabinetry needs including kitchen benchtops and doors, office furniture and fit-outs, commercial application, hospitals and much more. This is a perfect product solution that has the ability to be used in nearly every joinery project imaginable. Superclean gives you the ability to provide your next project with a look of distinct style and sophistication.

LikeWood 2D+

Likewood 2D+ is the perfect alternative to solid timber & timber veneers giving the appearance, consistency of grain features & uniformity in colour. Likewood 2D+ is an Olefin film containing no PVC with an Electron Beam (EB) clear cured surface. The clear coated EB surface technology enhances the product durability and wearability making it suitable for a wide range of interior applications from kitchen doors, wardrobes, home furniture, commercial shop and office fitouts, internal doors, hotels and acoustic panels giving you a broad array of applications.

Creative Accessories.

Architects and interior designers can create great designs by combining the best materials and colours to suit their client's needs.

At Tesrol our design team is constantly developing new products that allow our customers to achieve stunning results. Great design is all about the clever use of space and light, combined with the best quality materials, colours and textures to suit the particular project.

Cabinet door designs and accessories are now so stylish that they can be used throughout the entire home or office.

Some examples of integrating into other areas include vanities in your bathroom, laundry, panelling, wardrobe doors, and decorative partitions. The result is a look which designers love as it visually blends the various areas of your home.

Tesrol is well known for their ability to produce exciting one off pieces and custom made components to add a touch of flair to any project. Creative accessories can bring your designs to life - giving a unique and artistic flair to your next project.

Recess Rails

Current trends in kitchen and cabinetry designs have uncluttered lines. To achieve this look, Tesrol has developed the recess rail which is available in either raw MDF, Vacuum Formed or Polyurethane finishes.

Vacuum Formed Folded Panels

Tesrol was the first company to perfect the development of seamless Vacuum Formed panels, removing the needs for joins thus achieving a seamless paint like finish that is professional and clean.

Roller Shutters

Roller shutters are an excellent way to get access to sliding shelves or appliances without the need for a door to be in the way.

Available in either vacuum formed, painted or raw MDF finishes and in custom sizes, they are a sure way to add functionality and class to your kitchen or cabinets.

Glass Frames and Glazing Bars

Tesrol offers a range of Glass Frames and Glazing bars to suit your next kitchen or cabinet project.

They help to create a unique spacious showcase while adding a touch of elegance and character to your cabinetry.

Open Shelves

The use of shelving is a classic yet bold way to showcase and restyle your kitchen. Giving you the ability to showcase your favorite ornamental piece, family memories or whatever your heart desires.

Shelving comes in multiple styles to suit your needs.

Drawers

Tesrol produces a wide variety of drawer bank to suit your needs based on your preference or style. From individually routed doors to drawers cut from a door and even matching grain doors.

Each option brings a sense of bespoke class to your cabinetry.

Wine Racks

Wine racks are available in a kit form designed for your cabinet maker to directly integrate into your project.

Available in a range of various finishes and designs, it gives a perfect solution for your wine collection.

Rangehood Canopies

Tesrol produces assembled ornate rangehood canopies, allowing your cabinet maker the ability to add some old world charm to your kitchen.

They come available in raw MDF or painted finishes only in either 800mm or 1100mm wide.

Fretwork

Fretwork can be used to adorn your next kitchen or cabinetry project. Tesrol manufacture custom size fretwork in two variations.

Capping

Tesrol produces the largest range of pre-finished capping moulding in Australia. Whether your project is modern, traditional or ornate, there is a style designed to suit.

Available in raw MDF, Vacuum Formed, and Painted.

CL5	285 x 70 x 70	T2 (X2)	115 x 115 x 19
C88	285 x 90 x 85		

Decorative Columns and Blocks

Decorative blocks and columns are the perfect accessories for adding a touch of old-world charm to any cabinetry project. They come available in raw MDF, vacuum formed, and painted finishes.

Skirting

Matching skirting has become a critical component of both kitchen and home design where they can be used to make a project feel more consistent. Tesrol product skirting designs are available in either raw MDF, Vacuum Formed or Painted finishes.

Heat Deflectors

Some ovens which are flush mounted are not designed to deflect heat away from surrounding surfaces. Tesrol supply heat deflector strips in black, white or chrome, which must be used on Vacuum formed doors. Failure to correctly install heat deflectors may void the product warranty.

Maintenance

Caring for your Tesrol products. For more information visit www.tesrol.com.au

Your Tesrol doors and panels can be cleaned using a solution of mild soapy water and a soft cloth. More persistent stains may be treated with methylated spirits followed by soapy water. Never use solvent based or abrasive cleaners which could damage the surface.

Excessive heat can cause damage, so it is important to ensure the following:

- Always use your rangehood when cooking
- Avoid having toasters, coffee machines, etc. in a position where heat is constantly being subjected to the product's surface
